Customer Problem Statement Template

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statements

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a working professional who wants to eat healthier	track my daily calorie intake and understand what I'm eating	I don't have time for manual calculations or complicated apps	existing tools are either too basic or too cluttered to use consistently	discouraged and less likely to stick with healthy eating habits
PS-2	a student trying to manage my diet on a budget	keep an eye on my calorie and protein intake without extra cost or effort	I lack a single reliable place to search food and log what I eat	nutrition information is scattered across different websites and labels	unsure whether I am eating a balanced diet

Converged Problem Statement

“Health-conscious individuals, students, and working professionals struggle to track their daily calorie intake and understand the nutritional value of the foods they eat — most rely on manual calculations, paper notebooks, spreadsheets, or complex, cluttered apps that are time-consuming and hard to maintain. This lack of a simple, accessible tracking solution makes it difficult for people to build and sustain healthy eating habits.”
